

Last Drop™ Low Retention Tips

SAMPLE RECOVERY
NOW BECOMES
EFFORTLESS

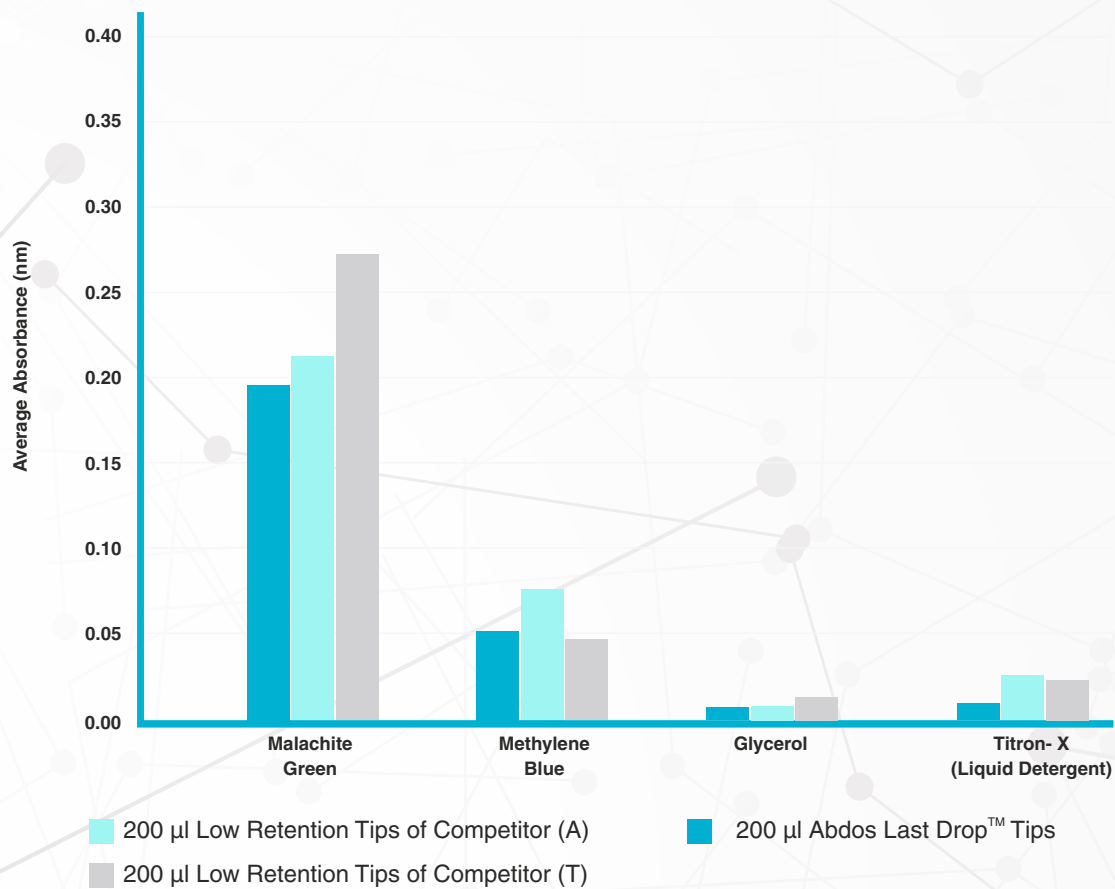

Features

- Manufactured from pure USP class VI certified virgin polypropylene free from natural rubber and inhibitory plasticizers
- 10 times less sample retention as compared to the standard pipette tips
- Full traceability
- Highly homogenous surface that prevents non-specific binding
- Diamond polished mould for the best-in-class hydrophobicity property
- Refill pack available in low retention universal pipette tips
- Available in all volume variants (Universal Pipette Tips and Universal Filter Pipette Tips), from 10 µl to 1250µl
- Colour coded inserts in racked tip box have details that include product code, product & volume description with lot number. This keeps your work organised by visual identification

Material & Method

- 200µl Last Drop™ pipette tips were compared with other low retention tips in combination with an electronic pipette, were used to aspirate & dispense 100µl of Malachite Green, Methylene Blue, Glycerol & Titron-X (liquid detergent) at a constant pipetting speed.
- Residual in the pipette were washed out by repeated rinsing with 200µl water into cuvette and compared photometrically. The average values established are shown in the table.

COMPARISON CHART

Result: Abdos Last Drop™ Pipette Tips clearly reduce sample loss. As seen above in the graph, it clearly indicates that Abdos Tips retained least amount of residue and saves on costly reagents.
