

Elegant

Manual 8-Channel Adjustable Pipettes

Lightweight

Easy-to-hold

Ergonomically Designed

Features

► FlexibleTip Attachment

With just a gentle touch, the pipette tips securely attach, eliminating the need for repeated tapping. This ensures a tight, consistent fit for multi-channel pipetting while reducing the effort needed for tip ejection.

► Color Coding

Each cap is uniquely color-coded to indicate a specific volume range, making it easy to quickly identify and select the right pipette for your needs.

► 4-Digit Display

Provides precise, clear volume readings for enhanced accuracy, ensuring you can trust every measurement.

► Ergonomic Design

Crafted for comfort and ease, this pipette features a lightweight body that requires minimal pressing force. Ejecting the tip is effortless, with a smooth, moderate press stroke. The ergonomic finger rest minimizes hand fatigue, while the handle ensures a secure, comfortable grip for extended use.

► UV Resistant and Fully Autoclavable

The pipette is fully autoclavable and can be safely disinfected with UV light. Its design allows for easy disassembly and simple maintenance, ensuring long-lasting performance and hygiene.

► 360° Rotation

The pipette can freely rotate 360° in any direction, offering flexible handling and ease of use in any position.

► Exceptional Repeatability and Consistency

Delivers reliable performance with strong repeatability and consistent results across all channels.

► Volume Lock

The integrated volume lock feature ensures that the selected volume remains secure, preventing any accidental adjustments during use.
